-----

The Energy Act for Ukraine Foundation has been fundraising for this school under their campaign, which aims to equip 100 schools with solar panels and energy storage.

Despite missile attacks and frequent air raid alarms, Ukrainian Secondary School No. 3 in Chernihiv has bravely begun the new ...

Imagine if every school rooftop in Donbas had solar+storage microgrids. Not only would it prevent blackouts during math classes, but it'd create an army of energy-literate citizens.

Completed in only six months, the project was commissioned entirely remotely. Ukrainian private utility DTEK has energised the largest ...

Ukraine is launching a large-scale project to create energy-independent schools. After completing two phases of autonomy upgrades, they will be able to operate for up to 12 ...

According to DTEK, the project can store 400 megawatt-hours of electricity -- enough to power 600,000 Ukrainian homes for two hours. ...

Irpin Lyceum No.1 suffered greatly during the Russian occupation; the school was extensively damaged. Together, the foundation, organisations and companies equipped the ...
