The MT-UPS-1P-240V-15KVA-120.240V-50.60HZ-M1 is an Industrial Uninterruptible Power Supply (UPS) for work sites and large facilities. This battery backup unit operates on single ...

The SKE SC1K (S) Single-Phase High-Frequency Online UPS is a new generation of fully digitalized uninterruptible power supply with single-phase input and single-phase output, ...

Our Online Double Conversion UPS is a high-reliability power protection solution designed for small and medium-sized enterprises, web servers, and small servers. The UPS features an ...

A UPS can supply power to devices from a built-in battery for a given period of time during an instantaneous voltage drop or a power failure to protect devices and important data.

Flexible support for AC output and direct feed input in the same equipment dimensions is possible with the large number of single-phase specification variations.

Single-phase uninterruptible power supply systems are ideal for powering smaller environments. These UPS systems use a single input and output ...

Single phase uninterruptible power supplies (UPSs) sit between an AC outlet (i.e., a wall outlet or power strip) and an electronic device (such as a computer, server, or phone equipment) to ...

A Single-Input Single-Output (1:1) UPS features single-phase AC input (220V) and single-phase AC output (220V). Its topology uses a single-phase rectifier to convert 220V to ...

IUPS Industrial UPS 5k - 60kVA Output : Single-Phase: 120, 208, 220, 230, and 240 VAC Input :
