What is a solar tile manufacturer?

As a solar tile manufacturer, we offer innovative solutions to meet your solar product needs. Our solar tiles integrate advanced solar cell technology and can be a direct replacement for traditional tiles as part of a building's roof, providing clean, renewable energy for your home.

What are solar roof tiles?

Solar roof tiles (or photovoltaic roof tiles) are a way to seamlessly integrate solar technology into your home without compromising the natural design of your home. It works on the same principle as traditional solar panels. Therefore, solar roof tiles combine the functionality and aesthetics of BIPV, allowing for uniformity of design!

What is a combined solar roof tile and a battery solution?

The combined solar roof tiles and a battery solution offers an easy-to-use monitoring system so you can track your solar roof system's performance, monitor the amount of energy it stores and how much you're saving on your energy bill.

Can a solar roof be integrated with a planum tile?

Our Solar tile combines perfectly with our Planum ceramic tile, so the system will be fully integrated with the roof. Planum Solar tiles are made from premium mono crystalline cells and the glass technology that surrounds them is very sturdy and durable in extreme weather conditions.
