JA Solar has reached an agreement with Larsen & Toubro (L& T) to supply 1.2GW of photovoltaic (PV) modules for the Samarkand 1 and 2 solar power projects in Uzbekistan.

The project aims to expand clean and reliable electricity access to approximately 75,000 households. The project marks Central ...

The project aims to expand clean and reliable electricity access to approximately 75,000 households. The project marks Central Asia's first renewable energy initiative with an ...

JA Solar will supply all photovoltaic modules for the 1.2 GW Samarkand 1 and 2 solar plants in Uzbekistan, supporting renewable ...

This support will secure the obligations of the state-owned National Electric Grid of Uzbekistan JSC to purchase electricity from a new 100-megawatt (MW) solar power plant to be ...

Uzbekistan has made a positive effort toward that end, including by setting clear targets and reforming the energy sector and has been progressing toward achieving the solar power ...

This article will delve into the latest statistics on solar energy development in Uzbekistan, reviewing the key achievements of 2024 and outlining the ambitious plans set for 2025 and ...

The Project involves the design, financing, construction, ownership, operation, and maintenance of three solar photovoltaic independent power plants representing a combined ...

Developed by the international renewable energy company Voltalia, this 126-megawatt project is a cornerstone of Uzbekistan's strategy to expand its green energy ...

President Mirziyoyev first toured a manufacturing plant in Nukus and inspected Uzbekistan's first PV module automated production line. This project commenced operations ...

JA Solar will supply all photovoltaic modules for the 1.2 GW Samarkand 1 and 2 solar plants in Uzbekistan, supporting renewable energy growth, cutting over 1mn tons of CO2 ...

The Uzbek Government has announced the start of construction work of a 500 MW solar PV power plant in the Besharyk district, in the Fergana region of eastern Uzbekistan.
