Will a new project increase Venezuela's production?

According to IPD Latin America, ventures operated by ENI, Repsol, and Maurel & Prom could increase production by an additional 50,000 b/d in the near term. As a result, we estimate that these projects will increase Venezuela's total output to around 900,000 b/d by the end of 2024.⁷

Why is Venezuela struggling with oil & natural gas development?

Furthermore, budgetary constraints at Venezuela's state oil company PDVSA and a lack of qualified technical personnel and foreign direct investment have all hampered Venezuela's oil and natural gas development. PDVSA is the largest source of revenue for the Venezuelan government.

What is the main source of revenue for the Venezuelan government?

PDVSA is the largest source of revenue for the Venezuelan government. When Venezuela nationalized its oil industry in the 1970s, PDVSA was formed. The government gave the company significant autonomy until the 1990s, when it took direct control of PDVSA.

What is the role of coal in Venezuela's energy mix?

In comparison to oil and natural gas, coal plays a minor role in Venezuela's energy mix, accounting for 0.2% of total energy production and 0.1% of total energy consumption. Venezuela's coal industry has faced challenges such as outdated infrastructure and limited investment, which has affected production.
