In addition to mandating solar panels and energy-efficient buildings, Vienna is now heating thousands of homes with geothermal energy instead of planet-heating natural gas.

Austria's 2025 solar policy introduces major subsidy changes for PPAs and energy storage. Discover the latest on Austria's renewable energy transition.

A large battery storage with five megawatts stores the solar power from Vienna's largest photovoltaic system on Schafflerhofstrasse and feeds it into the grid.

Our citizen solar power plants allow people to financially participate in PV systems, benefiting from a secure investment and favourable tariffs. Wien Energie built Vienna's first collective PV ...

Vienna's commitment to climate neutrality by 2040 has fueled investments in innovative photovoltaic energy storage projects. With rising solar adoption and fluctuating energy ...

Operators can apply for grants for the construction of small photovoltaic systems or wind turbines (up to 1 MW capacity), the conversion of biogas plants to "green" gas or ...

Hybrid solar, combining solar with storage or wind, is key for Europe's energy transition. It supports system flexibility, improves the cost-effectiveness of an asset and makes ...

Made-in-Europe Bonus: Austria as one of the first EU countries to introduce a Europe-bonus for the installation of solar power systems as part of a subsidy program

Austria's 2025 solar policy introduces major subsidy changes for PPAs and energy storage. Discover the latest
