Who makes solar panels in Vietnam?

Today, Vietnam hosts over 47 solar panel companies, including major international players like Longi Solar, JinkoSolar, and Canadian Solar, alongside emerging domestic manufacturers such as Bamboo Capital and Sao Mai Group.

Does Vietnam have a solar panel market?

Vietnamese solar panel production capacity has grown from 2.5 GW in 2019 to an impressive 18.7 GW by 2024, representing a 648% increase in just five years. This remarkable growth has positioned Vietnam as the fourth-largest solar panel exporter globally, capturing approximately 12% of the worldwide market share.

Where are Vsun solar panels made?

Located in Bac Giang province, Vsun is equipped with advanced solar PV production lines from Japan and produces a wide range of high-efficiency solar products. Vsun's product portfolio includes both mono and polycrystalline solar modules that offer high efficiency and excellent durability.

Why should you invest in Vietnam's solar panel industry?

As Vietnam's solar panel industry continues to innovate and expand, it offers exciting opportunities for investors, manufacturers, and consumers alike. With cutting-edge technology and strong sustainability commitments, Vietnam is set to become a leading force in the global renewable energy market.
