The comprises 16 Hithium energy storage containers, each with a capacity of 3.44MWh. Each container is a liquid-cooled battery storage system based on prismatic LFP ...

Construction of the new facility is scheduled to begin in 2024 and will already be the largest battery energy storage system (BESS) project undertaken in Southeastern Europe.

HiTHIUM has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of ...

The new facility officially went live in early June, with the delivery of Hithium's 16 energy storage containers, each with a capacity of 3.44MWh, to Solarpro. Solarpro is a ...

The facility became operational in early June 2024, following the installation of Hithium's 16 energy storage containers, each with a ...

The new facility officially went live in early June, with the delivery of Hithium's 16 energy storage containers, each with a capacity of 3.44MWh, to Solarpro.

The new facility officially went live in early June, with the delivery to Solarpro of Hithium's 16 energy storage containers, each with a capacity of 3.44 MWh.

The facility became operational in early June 2024, following the installation of Hithium's 16 energy storage containers, each with a 3.44MWh capacity. Hithium's Block ...
