In this instalment of our Nordic power sector transition series, we explore the emerging technologies in the region's energy ...

Battery Energy Storage Systems (BESS) lead the Nordic energy storage market in 2025, making up about 40-50% of the total market value. Lithium-ion technologies head this ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on ...

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in ...

We highlight Sweden's top 10 energy storage investors, who finance and deploy capital across grid-scale battery systems, hybrid renewables, and other storage technologies.

Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will ...

Nordic countries are rapidly deploying intermittent renewable energy sources like wind and solar power. The variable output from these sources presents challenges to grid stability, making ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

In this instalment of our Nordic power sector transition series, we explore the emerging technologies in the
