Can property owners install e-bike battery swapping & charging cabinets on sidewalks?

NEW YORK - New York City Department of Transportation (NYC DOT) Commissioner Ydanis Rodriguez today announced property owners and tenants with property owner approval can apply to install e-bike battery swapping and charging cabinets on sidewalks within the public right-of-way in front of their properties.

How can e-bike battery swapping and charging cabinets reduce apartment fires?

The measure is designed to reduce apartment fires by moving more battery charging and storage to safe, Fire Department New York (FDNY) approved cabinets on sidewalks. The agency also published a step-by-step guide with information on the process to apply for e-bike battery swapping and charging cabinets on public sidewalks.

How does NYC DOT approve e-bike battery swapping & charging cabinets?

NYC DOT will review applications through the revocable consent process and will coordinate closely with FDNY, which will conduct site inspections prior to installation. All e-bike battery swapping and charging cabinet models will require approval by FDNY's Technology Management unit.

Do e-bike battery swapping and charging cabinets need a permit?

All e-bike battery swapping and charging cabinet models will require approval by FDNY's Technology Management unit. The New York City Department of Buildings will be responsible for issuing electrical permits for cabinet installation.
